

Replacement Optical Chamber for KL731/A & DP331I/1561 detectors

KOB700

The KOB700 is an optical replacement chamber for KL731/KL731A and DP331I/DP1561 detectors. It is an inexpensive part that allows easy maintenance of these detectors on site without the need for cleaning solvents or complicated cleaning procedures. Once replaced, the detector performs as if it was a new device.

The KOB700 is supplied in packs of 10.
